

Name	School	Expertise	Email
Prof. Arnon Soffer	Faculty of Social Sciences	Political geography, Geostrategy and security, Demography	asoffer@univ.haifa.ac.il
Prof. Ofira Ayalon	Faculty of Social Sciences	Environmental management; Environmental economics; Solid waste	oayalon@univ.haifa.ac.il
Prof. Barak Herut	Leon H. Charney School of Marine Sciences	Chemical oceanography	barak@ocean.org.il
Prof. Dan Tchernov	Leon H. Charney School of Marine Sciences	Marine Biology	dtchernov@univ.haifa.ac.il
Dr. Aviad Scheinin	Leon H. Charney School of Marine Sciences	Marine Behavior Ecology, Chairperson of "Mahmali", Israel Marine Mammal Research and Assistance Center	ascheinin@univ.haifa.ac.il
Dr. Beverly Goodman	Leon H. Charney School of Marine Sciences	Marine Geoarchaeology and coastal environments	bgoodman@univ.haifa.ac.il
Dr. Derya Akkaynak	Leon H. Charney School of Marine Sciences	Computational Optics and Light in the Ocean Realm	dakkaynak@univ.haifa.ac.il
Dr. Gideon Tibor	Leon H. Charney School of Marine Sciences	Shallow marine geophysics; Remote sensing – Ocean color; Geographic Information System (GIS)	gtibor@univ.haifa.ac.il
Dr. Igal Berenshtein	Leon H. Charney School of Marine Sciences	Larval Dispersal and Connectivity, Marine Pollution and Ecosystem Modeling	iberensht@univ.haifa.ac.il
Dr. Itzik Klein	Leon H. Charney School of Marine Sciences	The intersection of artificial intelligence with inertial sensing, sensor fusion, and robotics.	kitzik@univ.haifa.ac.il
Dr. Mor Kanari	Leon H. Charney School of Marine Sciences	Marine Geology and Geophysics: seafloor morphology and structure and their effect on human activity and benthic habitats	mor.kanari@ocean.org.il
Dr. Regina Katsman	Leon H. Charney School of Marine Sciences	Methane bubbles in muddy aquatic sediment: migration and release, Induced earthquakes, numerical and analytical multiscale geophysical modelling	rkatsman@univ.haifa.ac.il

Dr. Tal Luzzatto Knaan	Leon H. Charney School of Marine Sciences	Functional Metabolomics and Marine Natural Products	tluzzatto@univ.haifa.ac.il
Dr. Yoav Lehahn	Leon H. Charney School of Marine Sciences	Laboratory for remote sensing of marine systems	ylehahn@univ.haifa.ac.il
Prof. Ami Pedahzur	Leon H. Charney School of Marine Sciences	Modern Warfare, Terrorism, Political Extremism, Research Methods	apedahzur@univ.haifa.ac.il
Prof. Baruch Rinkevich	Leon H. Charney School of Marine Sciences	Studies on marine invertebrates (primarily corals and tunicates) immunology and developmental biology (cellular, molecular and whole organism levels), cell cultures from marine invertebrates, population genetics of corals and tunicates using molecular probes, coral reef restoration, water genotoxicity and thraustochytrids biology	brinkevic@univ.haifa.ac.il
Prof. Boris Katznelson	Leon H. Charney School of Marine Sciences	Wave propagation theory, ocean acoustics and acoustical oceanography	bkatsnels@univ.haifa.ac.il
Prof. Daniel Sher	Leon H. Charney School of Marine Sciences	Chemical Ecology and Microbial Oceanography	dsher@univ.haifa.ac.il
Prof. Gil Rilov	Leon H. Charney School of Marine Sciences	Marine Ecology and Conservation, Community Ecology	rilovg@ocean.org.il
Prof. Hassan Khalilieh	Leon H. Charney School of Marine Sciences	History of Islamic maritime law, and Islamic law of the sea	khalilih@research.haifa.ac.il
Prof. Ilana Berman Frank	Leon H. Charney School of Marine Sciences	The impact of aquatic ecosystems on the environment and society, ranging from the local to the global scales	iberman2@univ.haifa.ac.il
Prof. Laura Steindler	Leon H. Charney School of Marine Sciences	Marine Microbiology	lsteindler@univ.haifa.ac.il
Prof. Michael D. Krom	Leon H. Charney School of Marine Sciences	Seawater analysis Lab. For extremely Low concentration detection of nutrients	m.d.krom@leeds.ac.uk

Prof. Michael Lazar	Leon H. Charney School of Marine Sciences	Tectonics of the Dead Sea, gas escape from the seafloor, submarine landslides, remote sensing, shallow geophysical methods in the marine environment	mlazar@univ.haifa.ac.il
Prof. Nicolas Waldmann	Leon H. Charney School of Marine Sciences	Marine geology and limnogeology with applications to paleoclimate and paleotectonism	nwaldmann@univ.haifa.ac.il
Prof. Revital Bookman	Leon H. Charney School of Marine Sciences	Recent and past marine and lacustrine environments and modern anthropogenic processes.	rbookman@univ.haifa.ac.il
Prof. Roe Diamant	Leon H. Charney School of Marine Sciences	Research in the underwater Acoustic and Navigation Laboratory (ANL) includes development of underwater acoustic communication modems, underwater signal detection systems, sonar detection, object classification, and underwater navigation.	roee.d@univ.haifa.ac.il
Prof. Smadar Ben Tabou deLeon	Leon H. Charney School of Marine Sciences	Developmental gene regulatory networks and their evolution, Marine Biology	sben-tab@univ.haifa.ac.il
Prof. Tali Mass	Leon H. Charney School of Marine Sciences	Coral ecology, physiology and biomineralization	tmass@univ.haifa.ac.il
Prof. Tali Treibitz	Leon H. Charney School of Marine Sciences	Imaging, Underwater Sensing, Oceanic Engineering, Computer Vision, Computational Photography.	ttreibitz@univ.haifa.ac.il
Prof. Tamar Lotan	Leon H. Charney School of Marine Sciences	Developmental Marine Biology and Molecular Ecology, Marine Biology	lotant@univ.haifa.ac.il
Prof. Uri Schattner	Leon H. Charney School of Marine Sciences	Geophysics, Tectonics, Structural Geology	schattner@univ.haifa.ac.il

Prof. Yizhaq Makovsky	Leon H. Charney School of Marine Sciences	Active seafloor processes – climate and conservation, potential geohazards and resources, Margin and basin studies, Multi-attribute 2D & 3D seismic methods in offshore research, exploration and development, Very High Resolution acoustic profiling, imaging & characterization	yizhaq@univ.haifa.ac.il
Dr. Ehud (Udi) Eiran	School of Political Sciences	Practical and theoretical aspects of international conflict and conflict resolution, with a particular interest in the Arab-Israeli conflict.	eeiran@poli.haifa.ac.il
Prof. Aviad Rubin	School of Political Sciences	Politics of identity, democratic theory, language policy in democratic societies, religion and state in democratic societies.	arubin@univ.haifa.ac.il
Prof. Shaul Chorev	School of Political Sciences	Maritime Strategy), Strategy & War , Counter proliferation Weapon of Mass Destruction, Theater Security Decision Making, Innovation and Adaptation in the Military, Nuclear Weapons and National Strategies.	schorev@poli.haifa.ac.il
Dr. Dan Kerem	The Leon Recanati Institute for Maritime Studies	Marine Physiology, President of "Mahmali", Israel Marine Mammal Research and Assistance Center	dkerem1@univ.haifa.ac.il
Prof. Dorit Sivan	The Leon Recanati Institute for Maritime Studies	Coastal Geology, Maritime Civilizations	dsivan@univ.haifa.ac.il
